Southeastern Minnesota Arts Council FY 2026-2027 Preliminary Biennial Plan

Mission statement

The biennial plan must include the regional arts council's mission statement which must describe the overall philosophy and aims of the organization concerning local and regional arts development.

(1,000 characters max)\*

SEMAC exists to encourage, promote, and assist regional arts development by providing leadership, outreach, advocacy, mentorship, grants, and services.

Region - Background, demographics, other context for the plan

(5,000 characters max)\*

Provide any necessary context about your region (i.e., economic, demographic, geographic, cultural, etc.) or about your organization that has a meaningful impact on your planning or your programs and services.

SEMAC has served as the designated regional arts council for Dodge, Fillmore, Freeborn, Goodhue, Houston, Mower, Olmsted, Rice, Steele, Wabasha, and Winona counties, including the Prairie Island Indian Community since 1977.

According to the U.S. Census Bureau 2022 numbers, the total population of the 11-county region is 520,313, which is just over 9% of Minnesota's total population. 83.3% of the population is white, 6.4% is Hispanic, 4.4% is Black, 3.6% is Asian, 1.9% is of two or more races, .4% is American Indian and Native Alaskan, and .1% is Native Hawaiian or other Pacific Islander. 5.4% of the population are veterans, 10.3% are people with disabilities (all ages), 18.9% are seniors, and 9.3% are living in poverty. The top three non-English languages spoken in the region are Hmong, Somali, and Spanish. In the last election, the region voted overwhelmingly conservatively. Of the 23 State Senators and Representatives currently representing the region, 18 are affiliated with the Republican Party.

Rochester, the third largest city in the state with a population of more than 121,000, is centrally located in the region. There are also several mid-size towns, including Albert Lea, Austin, Faribault, Northfield, Owatonna, Red Wing, and Winona, which each have populations of between 16,500 and 27,000. However, the region is primarily rural with many small towns that have fewer than 5,000 residents, including Caledonia, Chatfield, Mantorville, and Zumbrota, and dozens of even smaller towns with populations under 1,000, including Lanesboro which has 723 residents.

The region is home to the Mayo Clinic, one of the State's largest employers, and to Hormel Foods, which is an economic driver and philanthropic entity impacting Mower County in particular. The 11-county region has forty-three K-12 school districts, four community college campuses, and five colleges and universities. The Minnesota State Academies for the Deaf and the Blind are located in the region. The region also boasts access to nature, including 11 State Parks, the Zumbro River and Root River watersheds, and the Mississippi River runs along its eastern border.

There are several vibrant arts communities in the region, each with multiple arts organizations, support from local non-arts groups, and active communities of artists working in multiple disciplines. Noteworthy among these are Lanesboro, Northfield, Red Wing, Rochester, and Winona.

The majority of arts organizations in the region are small and have limited, if any, paid staff and are mainly managed by volunteers. However, there are also many large arts organizations, 18 of which recently were awarded Operating Support grants from the Minnesota State Arts Board. A total of 114 arts organizations who have sought support from SEMAC since July 2015 are registered in the grant interface.

#### Needs assessment

(10,000 characters max)\*

The biennial plan must be based on a needs assessment carried out in a manner which ensured input from the arts community and the arts involved public. The components of the needs assessment shall be determined by the regional arts council and may consist of any combination of constituent meetings, focus groups, program evaluations, mail, e-mail, online, or telephone surveys, individual interviews, or other evaluative tools. The assessment shall be conducted to assess and prioritize constituent needs, to evaluate appropriate community and regional resources to meet those needs, and to determine the practicality of continuing existing programming activities, service and grants assistance programs, or the feasibility of developing new programs, services, or grants by the regional arts council. The needs assessment shall be updated at intervals determined and announced by the regional arts council, but no less frequently than once every four years. The results shall be included in the biennial plan.

In this section, describe:

1. When the needs assessment was completed.
2. The process used to generate input from the arts community and the arts involved public.
3. The methods and/or tools used to gather input.
4. The key findings identified through the needs assessment.

SEMAC's FY2026-2027 Biennial Plan was informed by the results of an on-line Needs Assessment Survey as well as by information and feedback gathered through nearly 100 one-on-one conversations. SEMAC's executive director engaged in with artists, arts administrators, directors of nonprofit non-arts organizations, teachers, and other community leaders throughout the 11-county region since June 2023 when she was hired. Board members also met with individuals in their counties and submitted written notes to be considered.

The Needs Assessment Survey was written by the executive director and members of an ad hoc committee of the Board and was open from September 15 through October 31, 2024. It was publicized through multiple channels including SEMAC's October e-newsletter and two e-mail blasts, each of which was sent to more than 1,200 contacts; several social media posts from September 25 through October 31 on Facebook and Instagram; a month-long Meta ad in October targeting specific zip codes throughout the region; and press releases sent to 37 media outlets. The Meta ad resulted in 18,692 impressions and 265 clicks on the link. To supplement these publicity efforts, staff, Board, and Arts Advisory Panel members sent direct e-mails with information about and a link to the Survey to their friends and colleagues.

In total, we received 223 responses to the Survey in the following categories: 50 from individual artists, 34 from grant coordinators from arts organizations, 14 from grant coordinators from non-arts organizations, 51 from those with other paid or volunteer roles at arts or non-arts organizations, 14 from people with previous ties to SEMAC or to another arts or non-arts organization, and 60 from individuals who selected "none of the above". SEMAC's staff and Board were impressed with the number of responses which more than doubled our expectations and pleased with the distribution of these across categories. (Full report is attached.)

#### Key Findings

While survey respondents had a generally favorable view of SEMAC (for example, 63% of respondents ranked interactions with SEMAC staff as "excellent" and a majority of arts organizations felt SEMAC's current programs served the region well), several key areas for improvement were identified by staff and Board after review of SEMAC's Needs Assessment Survey report:

- Increase Awareness of SEMAC and Engagement with Underrepresented Groups (Addressed in Work Plan Priority #1)
  - Low survey participation from counties other than Olmsted and Winona, indicating SEMAC's low engagement with those counties
  - Low survey participation from BIMPOC individuals (4% of survey respondents vs. 16.7% living in our region according to US Census 2022), indicating SEMAC's low engagement with these groups
  - Low awareness of SEMAC and of its programs (25% of unaffiliated respondents indicated they were completely unaware of SEMAC)
  - Limited rural/small town arts opportunities
  - Rural communities need more encouragement and example projects
- Adjust Grant Amounts (Addressed in Work Plan Priority #3)
  - 46% of respondents overall wanted larger grant amounts (rising expenses are a concern and organizations want to keep their programs affordable)
  - A desire for smaller grant amounts also was expressed, for individual artists through a simpler application process as a way of encouraging young/new artists to apply and for organizations (esp. for very small organizations, \$5,000 can be more than they need/can manage)
  - Organizations expressed interest in more flexibility with the grant structure and amounts
  - Arts organizations also expressed a need for support in addition to programming grants, things such as staff trainings and strategic planning particularly to address the changes causing stress on the arts post-COVID
- Improve Application, Grant Review Process, Capstone Requirement, and Reporting (Addressed in Work Plan Priority #3)
  - Feedback from organizations on grant application and reporting process included many who said the application process was moderately difficult or difficult, and that the reporting process was difficult or very difficult
  - Comments that panel members are biased and do not read applications carefully
  - Artists and small organizations requesting more grant writing support
  - Requirement of Capstone Event for individual artists can be burdensome – need for more flexibility
- Provide Opportunities for Professional Development and Networking for Artists (Addressed in Work Plan Priority #2)
  - Requests for more professional development opportunities for individuals
  - Requests for more professional development opportunities for organizations (specifically mentioned marketing/communications, budgeting/financial reporting, Board training, volunteer recruitment and retention, and strategic planning)
  - Requests for more networking opportunities for artists
  - Interest in networking, collaboration, and shared resources among arts organizations
- Improve Communications and Website (Addressed in Work Plan Priority #1)
  - Respondents indicated they would like SEMAC's help promoting arts activities in the region (including

social media, local promotions, and an arts calendar)  
- Several comments that SEMAC's website is difficult to navigate

These findings support similar feedback the Executive Director received during her one-on-one meetings. Additional takeaways were:

- Networking (Addressed in Work Plan Priority #1) Facilitate conversations designed to allow participants to communicate with others in the region on specific issues, challenges, and actions most relevant to them.
- Art, Nature, and Wellness (Addressed in Work Plan Priority #1) Strong interest among arts and non-arts organizations in interdisciplinary partnerships exploring the intersection of art, nature, and wellness.
- School Residency Grants (Addressed in Work Plan Priority #4) From teachers and school administrators when asked about low demand for the school residency program: there is a strong interest in having students interact with artists and exposing students to new art forms and processes, but the main obstacle to schools applying is limited time.
- Support for Young Artists (Addressed in Work Plan Priority #4) Explore offering small grants to individuals (i.e. \$1,000) with a simplified application process and without a capstone event requirement aimed at supporting artists and culture bearers who may just be graduating or starting out in their art career. This would introduce them to applying for grants and provide them with the income or resources they need to continue making work. Various other ideas emerged about ways SEMAC could support younger and new artists in addition to grants, such as mentorships, cohorts, etc.

## Description of the planning process

(5,000 characters max)\*

The biennial plan must include a description of the biennial planning process used by the council including a list of the steps included in the development of the biennial plan and the participants involved in the biennial planning process.

Although the opportunity to develop this Biennial Plan and envision the future of SEMAC was on the mind of the new executive director the day she was hired in June 2023, the planning process formally began on December 10, 2024, with a day-long in-person meeting of SEMAC's three staff members, contracted communications manager, and chair of the Board to review and discuss the results of the Needs Assessment Survey (see attachment in Needs Assessment section above.) A summary of these results was presented to the full Board at their December 17 meeting, with the majority of that meeting devoted to discussing the report and identifying key findings to be reflected in SEMAC's Plan.

With these key findings in mind, the executive director drafted Work Plan Priorities with the staff and presented these to the Board at their meeting on January 14, 2025. In response to the Board's input and in consideration of the organization's capacity and resources, staff continued to review and edit these throughout the planning process.

Also at the January Board meeting, we heard from invited guest Andi Sutton, Executive Director of the Southeast Regional Sustainable Development Partnership with the University of Minnesota Extension, who presented the findings of a recent study she conducted with the Southeast Minnesota Initiative Foundation (SMIF) and the Center for Urban Regional Affairs (CURA), Pathways to Prosperity: Evaluating Collaboration Opportunities for Southeast and South Central Minnesota Funders to Better Serve Inclusion and Equity-Focused Grantees. The goal of this study was to identify how Southern Minnesota funders could best equip resilient communities-focused organizations that are BIPOC-led and BIPOC serving to realize their goals and spark transformative change at the community level.

Sutton shared eight primary findings from the study: traditional philanthropy is failing BIPOC-led organizations in that it favors well-resourced groups; short-term funding = short-term impact; funders need to trust BIPOC-led organizations to lead change; one size does not fit all, i.e. rural and urban organizations have different needs; risk-averse funders are stifling innovation; reporting burden hurts impact; relationships matter more than metrics; and be aware of "equity talk" without "equity walk". She also shared recommendations from the study for funders: provide technical support, offer flexible funding, develop relational strategies, increase cultural awareness, and advocate for systems change. Although SEMAC acknowledges this work is never done and there is a lot we have yet to learn, the findings of the study are reflected in the Biennial Plan, primarily with its focus on outreach and inclusion, as well as simplifying the grant process and offering more grant writing support.

Grants Committee meetings in January and February focused on discussions of possible changes to SEMAC's grant programs in response to the Needs Assessment. A final draft describing the updated grants programs was finalized by the executive director and Committee members via e-mail throughout February.

On February 27, a meeting was held for Board members to review the final drafts of the Work Plan Priorities, Program Information, and Budget sections of the Biennial Plan. Seven of eleven members attended, and one additional member submitted notes.

On March 3, the Grants Committee reviewed a final draft of the grants programs and provided input on final questions regarding the new programs. The executive director was primarily responsible for creating the budgets for FY2026 and 2027 to align with the Plan. She worked with a financial consultant at Propel NonProfits.

On March 11, the Board approved the preliminary plan. The plan was posted on the SEMAC website on March 13. This and the public meeting were publicized in the March e-newsletter sent to more than 1,200 contacts, in an e-mail blast, in a social media post, and through an ad buy on Facebook. Staff and board also sent direct e-mails to colleagues and community leaders inviting them to share their thoughts. A link to a Google Form was provided for written feedback or questions.

A public meeting was held on March 18 via Zoom. More information about this and solicitation of public feedback is below, in the Public Meeting section of this application.

## Work plan for grants, programs, and services - Overview

(4,000 characters max)\*

The biennial plan must include a work plan which contains a description of services, programs, and grants available from the council, and the goals and objectives of these activities as related to the needs assessment, and the 25-year arts legacy outcomes.

SEMAC will promote regional arts development in FY 2026 – 2027 by offering financial support to artists and culture bearers, non-profit arts organizations, and non-arts organizations through six grant programs; by providing services to artists, culture bearers, and organizations such as grant writing workshops and professional development opportunities; and by promoting arts activities to the general public through a monthly e-newsletter and an on-line regional arts calendar. (A complete list of services is in the Program Information attachment.)

The six grant programs SEMAC will offer in FY 2026 – 2027 are Project Support for Individual Artists and Culture Bearers, Rural Arts, Artists and Culture Bearers in the Schools, Programming Support for Organizations, Organizational Sustainability and Capacity Building for Arts Organizations (in FY2027 only), and General Operating Support for Arts Organizations. Noteworthy changes made to the grant programs as a result of the Needs Assessment as compared to the previous biennium include:

- grant amounts were increased for individuals and organizations
- individuals may apply to the Rural Arts Grant and this grant now requires a collaboration with one or more community organizations to ensure even the smallest communities in our region receive funding and to promote community-building through the arts
- individuals may apply for the Artists and Culture Bearers in the Schools grant, which will remove primary responsibility for this residency program from teachers and potentially increase the number of opportunities for K-12 students to interact with artists and culture bearers
- a new grant program was developed, Organizational Sustainability and Capacity Building, to provide support arts organizations expressed needing to ensure their stability and future strength

With the addition of an Outreach and Accessibility Manager to the staff, SEMAC's capacity to offer services has expanded significantly. We will offer more one-on-one grant coaching, develop and circulate a resource list for artists and culture bearers, increase the number of grant-writing workshops annually, and identify ways to make our programs and services more accessible. In partnership with Springboard for the Arts, Propel NonProfits, and Minnesota Alliance for Volunteer Advancement, SEMAC will improve upon our previous artist workshops and expand to include workshops for arts organizations.

In the previous biennium, SEMAC made improvements to its communications and promotions through an e-newsletter sent to more than 1,200 contacts monthly, social media, and printed postcards and handouts. In response to the Needs Assessment, we will continue this work to increase awareness of SEMAC and encourage participation in the arts with an on-line regional arts calendar to be promoted to the general public.

SEMAC is committed to providing grants and services with a goal of equitability and inclusivity. This spring, we will see the results of the Equity Audit that Exposed Brick Theatre was hired to conduct by the Forum of Regional Arts Councils (FRACM). SEMAC will use the audit and the data we have collected on our grantmaking since FY 2023 to focus our outreach efforts. Our data show that, during that time period, 12.2% of SEMAC's grants to individuals were awarded to people of color, whereas the region's BIMPOC population is 16.7%. Looking at SEMAC's grantmaking history by county, we see that several counties are being underserved, namely Dodge, Freeborn, Houston, Mower, Steele, and Wabasha. Individuals in these counties made up less than 3% of grant recipients and organizations in each of these counties received between 1.6 % and 8.1% of all organizational grants.

The Work Plan Priorities, detailed actions, and measurable outcomes in the next section address the 25-year Arts Legacy goals.

- Partner with organizations serving underserved populations to provide grant coaching and language services to applicants
- Identify diversity, equity, inclusion, and accessibility goals for SEMAC and take steps to implement
- Expand SEMAC's social media network and increase number of e-newsletter subscribers
- Improve regional arts calendar on website and promote this resource to the general public
- Develop interdisciplinary partnerships to engage the community in conversations about the role of art, nature, and wellness

Plan for measuring results (1,000 characters max)

SEMAC will collect demographic information from applicants, workshop participants, and people who receive grant coaching and language services and compare this to similar data from previous years to track whether the number of new people from the counties and underserved communities being targeted has increased. SEMAC will pay close attention to the demographics of grantees to measure the results of our outreach efforts. Our goal will be to increase the percentage of grants awarded to BIMPOC individuals from the current measure of 12.2% to 15% and to raise the percentage of grants awarded to underserved counties currently at 1.7% to 8.1% by a minimum of 2% each. Increased numbers of e-newsletter recipients, social media followers, and people using the calendar on the website also will help measure how much the region believes the arts are vital to their lives.

#### Program information

(7,000 characters max)\*

Describe the grants and other forms of assistance the council will provide, the review criteria for evaluating grant requests, and eligibility requirements.

SEMAC will promote regional arts development by offering financial support totaling \$810,000 in FY2026 and \$925,000 in FY2027 to artists and culture bearers, nonprofit arts organizations, and non-arts organizations through these grant programs:

- 1) Project Grants for Individual Artists and Culture Bearers encourage individual artists and culture bearers to take the next step in their creative pursuits by providing the financial support needed to experiment, take on a challenge, or deepen their practice. The grant proposal must be to support the creation of new work and include an opportunity for public engagement with that work.
- 2) Rural Arts Grants bring arts experiences into the smallest rural communities in southeastern Minnesota with populations below 7,500. The lead applicant can be an individual artist or culture bearer living in the SEMAC region or a non-profit organization in the rural community where the project is proposed to take place. Proposed projects must include a collaboration with a local community partner – a non-profit organization, library, government department or agency, tribal entity, etc. – opportunities for active community engagement, and an accessible public event.
- 3) Artists and Culture Bearers in the Schools provide students in grades K-12 with opportunities to work directly with artists and culture bearers during the school day. Grant activities must supplement the school's arts curriculum and not be a substitute for these requirements. The lead applicant can either be an individual artist or culture bearer living in the SEMAC region or the school in which the residency will take place. Written acknowledgement from the secondary applicant (school or artist) confirming their commitment and role in the proposed activities is required. No public event is required however the participating school must agree to share the residency in their district's communications to families, with the School Board, and with any local press contacts to raise awareness of the importance of the arts.
- 4) Programming Support Grants for Organizations support activities directly involved in the creation, performance, publication, and exhibition of the arts with a focus in one or more of the three key areas identified in the Arts and Cultural Heritage Fund Legacy Amendment – Arts Access, Arts Education, and Cultural Heritage. Nonprofit arts and non-arts organizations (non-profits, schools, local government and tribal entities) are eligible to apply, and collaborations between arts and non-arts organizations are encouraged. An accessible public event is required.
- 5) Organizational Sustainability and Capacity Building Grants is a new program that we plan to launch in FY2027. It will provide the support nonprofit arts organizations need to adapt to change, work on new strategies, develop competencies, or improve processes and systems. Examples of eligible proposals include feasibility studies for accessibility, strategic planning, financial consultation, and professional development opportunities for staff. Proposals to purchase new equipment to be used for arts programming also will be considered, if the applicant can make a strong case for how it would increase the organization's ability to better serve the needs of its community and/or contribute to the future financial health of the organization. In addition to a written final report, representatives from organizations receiving this grant must participate in a public forum to share information gained and the impact of the grant on their organization.
- 6) General Operating Support Grants are available to nonprofit arts organizations with operating expenses of less than \$174,000 to strengthen and stabilize their organization by supporting administrative and other overhead expenses over the course of two years (biennial grant). Recipients of this grant must submit an interim report after Year One to receive Year Two payment.

Full descriptions of the grant programs, including eligibility requirements, grant project restrictions, disallowed expenses, and review criteria are under the "Grants" tab found on the home page of SEMAC's website, [www.semac.org](http://www.semac.org).

In addition to grant programs, SEMAC offers the following services to individuals and organizations: workshops and training sessions, grant writing workshops and one-on-one assistance, resource lists, networking opportunities, language services, and regional promotion of their arts and cultural activities.

#### **Grant making and monitoring process**

**(5,000 characters max)\***

Provide a detailed description of the council's grant making process including the review process, the terms of the grant contract with grant recipients, the time needed and process followed in paying grant recipients, the responsibilities of grantees, and the grant monitoring process.

Grant applications are posted 30 days prior to the submission deadline. Staff is available throughout that time period for questions and, if an applicant submits their application at least one week prior to the deadline, they can request the staff review it and provide input. Applicants also can request one-on-one grant coaching support.

Once an application is submitted, the Grants Program Manager reviews it to confirm the applicant is eligible, the application is complete, and the budget does not include disallowed expenses. The Executive Director then reviews the narrative sections of the application to ensure the proposed project does not break any rules.

Eligible applications for the Project Support for Individual Artists and Culture Bearers grants, Rural Arts grants, Programming Support Grants for Organizations, and Artists & Culture Bearers in the Schools grants are assigned to Arts Advisory Panel members for their review. Subcommittees of the Board review Organizational Sustainability and Capacity Building grant applications, as well as General Operating Support applications. The Panel is comprised of artists, arts professionals, and other community members who support the arts and who live in the SEMAC region. Panelists may serve up to two consecutive three-year terms. Interested individuals apply to join the Panel. The Executive Director interviews the applicant and makes a recommendation to the Board for a vote.

Panelists and Board members are given three to four weeks to review the grants assigned to them independently. The Executive Director facilitates a meeting on Zoom during which the reviewers discuss each application based on the review criteria. These meetings are open to the public and recorded. The link to the recording and the panelists' written comments are shared with the applicants after awards are announced.

The following three criteria are used to review all grants: 1) artistic merit and quality of the project or program, 2) demand or need for the project or program by the applicant or by the constituents served, and 3) ability to accomplish the project or program they describe or the organizational goals as presented. At the conclusion of the public review meeting, each reviewer assigns a score from 1 – 5, with 5 being the highest, to each criterion for each application. The Grants Program Manager calculates the average score for each application and creates a list of applications in order from highest to lowest score. The Executive Director identifies the funding available for that grant round and then identifies which applications to present to the Board for approval by starting at the top and going down the list until funds run out. This list is presented to the Board for a vote.

It should be noted that the Panel and Board are asked to verbally declare conflicts of interest with a grant application prior to discussion of that application at the panel review meeting and prior to any discussion or vote on that application at the Board meeting. Panel members or Board members with a conflict are assigned to a breakout room on Zoom. If a meeting is held in-person, the person with a conflict will be required to leave the room.

Awards are announced the day after the Board meeting at which the applications were approved. Applicants are notified at that time as well and those receiving grants are sent a contract. Within two weeks after the contract is signed, the grant check is mailed. The earliest start date for a grant project is 90 days after the submission deadline.

Grantees are required to follow the terms of their contracts and to submit a final report within 30 days after their stated end date. The form for this is made available to them on the grant interface as soon as the contract is signed, allowing them to preview the information they will be asked to provide. If as the project unfolds the applicant must make a change to the budget, timeframe, or another aspect of the proposed project, they must submit a Request to Modify for the approval of the Executive Director. In addition to the final report serving as a source of information about the outcomes of a grant funded project, Board members attend public activities for these projects in the county they represent and submit a Monitoring Report Form. This form asks if SEMAC was acknowledged and if the project was what they expected from having read the grant proposal. It is reviewed by the Executive Director and shared with the full Board. Staff also attend grantees' activities and report on them to the Board.

See the Grant Making and Monitoring attachment for more details about SEMAC's grantmaking process, application requirements, Conflict of Interest Policy, scoring rubrics, terms of the grant contract, and responsibility of grantees. By-laws also are included.

All grant activities must take place within the state of Minnesota.

The proposal must include an accessible public engagement component to benefit the citizens of the [SEMAC Region](#). Virtual programming components are allowed, but the event must be in person.

Verification from the host organization that the Public Component has been scheduled and the venue is [ADA compliant](#) must be received by the Final Submission Deadline

A Proposal Narrative addressing the three SEMAC [Review Criteria](#) is required.

The [Start Date](#) must be at least (no fewer than) 90 days after the Final Submission Deadline, with an End Date within twelve months.

- Budgets with [Disallowed Expenses](#) will be disqualified.
- If total expenses exceed the grant amount, applicants will be asked about plans to cover the difference.

Applications may be submitted up to 30 days prior to the deadline, but will not be accepted after the deadline. SEMAC will not accept late applications or emails confirming capstone events, regardless of whether a deadline falls on a weekend. This is in fairness to applicants who submitted on time. No exceptions.

NOTICE: Grants to individual artists are taxable income. Grant recipients will be required to submit Federal Form W-9 and will receive Federal Form 1099.

**Southeastern Minnesota Arts Council, Inc.**  
**Conflict of Interest Disclosure Form**

Name: \_\_\_\_\_ Date: \_\_\_\_\_

Please describe below any relationships, positions, or circumstances in which you are involved that you believe could contribute to a real or perceived conflict of interest (as defined in SEMAC's Policy on Conflicts of Interest).

*I hereby certify that the information set forth above is true and complete to the best of my knowledge. I have reviewed, and agree to abide by, the Policy of Conflict of Interest of the Southeastern Minnesota Arts Council, Inc., that is currently in effect.*

Signature: \_\_\_\_\_ Date: \_\_\_\_\_

## SEMAC Conflict of Interest Policy

**Purpose & Scope:** SEMAC encourages the active involvement of its directors, officers, advisory panelists, and employees in the community. In order to deal openly and fairly with actual conflicts and/or the appearance of conflict that may arise as a consequence of this involvement, SEMAC adopts the following conflict of interest policy. This policy is intended to supplement, but not replace, Minnesota Statutes, Section 317A.255, which governs conflicts of interest for directors of nonprofit corporations. This policy applies to all directors of the board, advisory panelists, and persons employed (both paid and non-paid) by SEMAC, regardless of position.

**Responsibility:** SEMAC is effective because it includes individuals who have relationships and affiliations throughout the region that may, at times, raise questions about perceived conflicts of interest. Everyone who serves SEMAC has the responsibility to ensure that the entire board is made aware of situations that involve personal, familial, or business relationships that could create a real or perceived conflict of interest. Therefore, SEMAC requires that each director, panelist, and employee (a) to be familiar with the terms of this policy; (b) to disclose to the board any possible personal, familial, or business relationships that reasonably might give rise to a conflict involving SEMAC; and (c) to acknowledge by his or her signature that he or she is in accordance with the letter and spirit of this policy.

**Disclosure Statement:** Each director, panelist, and employee of SEMAC will be required to submit an annual disclosure statement listing all organizations with which s/he has a personal affiliation or feels unduly biased. The statement should describe the nature of the affiliation as defined below. Appearances of conflict include significant adversarial or advocate relationships in which impartial judgment may be impaired. At the time of disclosure a member should declare any conflicts that have occurred within two years prior to the submission date. These conflicts will continue for two years once declared. In the event there is a material change in the information contained in a disclosure statement, written notification must be promptly submitted to the Executive Director.

A conflict of interest exists if a director or advisory panelist:

- Receives direct financial benefit from the organization or project being reviewed.
- Serves as an employee or governing board member of an applicant organization.
- Serves with or without pay as a consultant to an applicant, or on the application being reviewed.
- Has a familial, adversarial, or significant advocate relationship with an applicant or a staff or board member of an applicant organization.
- Receives free tickets or other benefits **directly** from a grant applicant being reviewed. NOTE: It is permissible for the SEMAC office to receive tickets or other arrangements from a funded grant for distribution to board and panelists.

This policy does not imply that directors, panelists, or employees should reveal any political, religious, ethnic, fraternal, or civic affiliations.

**Administration:** The SEMAC board president and Executive Director, working together, have the authority to review and determine the existence and affect of a conflict of interest. This determination shall be brought to the attention of the full board. Members acting in violation of the rules will be asked to resign. Information disclosed under this policy will be held in confidence except where, in the judgment of the board, the best interest of the organization requires further disclosure.

**Restraint on Participation:** A director, panelist, or employee who has declared or has been found to have a conflict of interest in any proposed transaction or other matter involving SEMAC will refrain from participating in consideration of the proposed transaction or other matter, unless for special reasons the board requests information or interpretation from the person or persons involved. Furthermore, a director or panelist will not vote on the matter in question and will not be present at the time of the vote.

**Advance Determinations:** Any director, panelist, or employee who is uncertain about possible conflicts of interest in any matter may request the board to determine whether a possible conflict exists; the board shall resolve the question by majority vote.

Every other year, the Regional Arts Councils throughout the state are required by the Minnesota State Arts Board to submit a Biennial Plan that sets priorities for the two upcoming fiscal years. This spring plans are due for fiscal years 2026 and 2027!

Each regional arts council's plan is based on input from the communities we serve. SEMAC's plan was shaped by the results of the Needs Assessment Survey we conducted this fall to which more than 200 artists, arts professionals, arts supporters, and members of the general public responded. But, participation from the community in this planning process does not end there! On Tuesday, March 18, we will hold a public meeting on Zoom to go through the key points and to hear your input. The Southeastern Minnesota Arts Council (SEMAC) invites community members to participate in shaping the organization's 2026-2027 Biennial Plan. This comprehensive strategic plan will guide SEMAC's work to encourage, promote, and support vibrant arts communities throughout 11 counties in southeastern Minnesota: Dodge, Fillmore, Freeborn, Goodhue, Houston, Mower, Olmsted, Rice, Steele, Wabasha, and Winona.

The draft plan, informed by feedback from more than 200 artists, arts professionals, and community members through a recent Needs Assessment Survey, outlines grant programs, community initiatives, and vital services. The plan aims to strengthen regional arts development through updated grant programs, expanded outreach, and enhanced learning opportunities, with a focus on fostering diverse artistic expressions and ensuring equitable access to arts resources throughout the region served by SEMAC.

SEMAC will host a virtual public meeting on Tuesday, March 18, 2025, from 6:00 PM to 8:00 PM to gather community feedback on the draft plan. The complete draft will be available for review on [semac.org](http://semac.org) beginning March 13, 2025. Community members can also provide feedback through a Google form available on the SEMAC website where the draft Biennial Plan will be posted.

"Receiving community feedback and input is so important for SEMAC to have the greatest positive impact on the artists, arts organizations, and members of the public who engage with the arts throughout our region. Every two years, we develop a plan for the coming two years in an attempt to understand and better meet the needs of our

region, and we invite the public to be a part of this process. We were thrilled to receive more than 200 responses to our Needs Assessment Survey this fall. The results of this survey had a huge impact helping to shape our draft Biennial Plan for fiscal years 2026 and 2027. I hope people will log into the Public Meeting on March 18 where I will share key components of the draft plan and be available for questions and comments." - Anastasia

The final plan will be submitted to the Minnesota State Arts Board and will guide SEMAC's grant programs and community initiatives through fiscal years 2026 and 2027.

For more information about the planning process or to register for the virtual meeting, visit [semac.org](http://semac.org) or contact the office at 507-281-4848.

This activity is made possible by the voters of Minnesota through grants from the Minnesota State Arts Board thanks to a legislative appropriation from the arts and cultural heritage fund.
